## K-12 Teachers of Writing in All Content Areas

### *Multi-Paragraph & Compare/Contrast*

is a one-day advanced module that builds on the skills taught in TWT 101 to help students gain additional skills in expository essay writing. In addition to strengthening multi-paragraph instruction, we examine another genre that incorporates these strategies - compare/contrast writing. This training also addresses prompt writing. This module is intended for teachers in grades 3-12.

*Lunch will be provided. \$10 per participant will be taken from your school's service credit money for material and fees.*
