

## Launch 2: Destination Jupiter

*A Tech-Center Exploration of Space & the Planets*

**Your mission is to find out some interesting facts about your destination planet! Click on the name of your planet to get started. Read through the web page that appears, and answer the following questions:**

- Jupiter is the \_\_\_\_\_ planet from the sun, and it is the \_\_\_\_\_ planet in the solar system.
- How many Earths could you fit across the face of Jupiter? \_\_\_\_\_
- How many Earth years does it take Jupiter to go around the Sun? \_\_\_\_\_
- The colorful bands you see around Jupiter are made of \_\_\_\_\_.
- There is a giant storm on Jupiter that has been around for \_\_\_\_\_ years, and it is so big that you could fit \_\_\_\_\_ whole Earths inside it! This giant storm is called "The \_\_\_\_\_."
- How many moons does Jupiter have? \_\_\_\_\_
- One of Jupiter's moons is called "Io." Why is Io called the "pizza moon?"  
\_\_\_\_\_  
\_\_\_\_\_
- Who was Jupiter? \_\_\_\_\_  
\_\_\_\_\_
