<b>Target Audience:</b>	PreK-12 Math Teachers
<b>Description:</b>	<p>Math Fluency is a valuable component in math instruction - but it is much more than fact speed and accuracy. Come learn more about what math fluency is and how to apply it in your classroom in a way that is supported by research.</p> <p>We know that “math talk” is an important component of instruction as well - what does that look like? How do I do that in my classroom? How do I teach kids to interact with each other? How can I add more math talk in my classroom? We will learn all of those answers and more in this session</p>
