| **Title IIA Eligibility** | No |
| **Target Audience:** | This training is intended for those who will help run already established verbal behavior programs such as paraprofessionals. It can also serve as a refresher for team members who have done the full 3 day training. |
| **Description:** | Students with a verbal behavior program often benefit from implementation of the programming across multiple environments and with different people. This workshop is designed for those who will be helping to run a verbal behavior program but are not responsible for the primary assessment, selection of skills to teach, or making instructional decisions based on data. In this workshop<br><br>Participants will learn important behavioral teaching principles including what is verbal behavior, discrete trial training, reinforcement, pairing, prompting and shaping<br><br>Participants will learn the verbal operants and why we teach a variety of skills<br><br>Participants will learn how to use errorless teaching techniques and error correction to help improve skill acquisition<br><br>Participants will receive hands-on instruction and practice on errorless teaching and error correction using the card sort system |

| | |
|---|---|
| | We will only be focusing on programs that use the card sort system.<br><br>Utilizing the individualized intensive supports covered in this training could be a NeMTSS Tier 3 intervention.  For more information on NeMTSS visit https://nemtss.unl.edu/about/ . |
| **Materials Required:** | Materials will be provided by ASD Network |
