Stipend Eligibility	no
Target Audience:	District and building-level MTSS teams, including administrators or leaders with decision-making authority. Teams are encouraged to send the same members to all four sessions for maximum continuity.
Description:	The Nebraska MTSS/ ESU 5 Quarterly Workshops are designed for district and school leadership teams who have established the foundations of MTSS and are committed to strengthening and sustaining implementation across their systems. Building on previous years of learning, these workshops provide opportunities for teams to refine district and school systems, analyze implementation and student outcome data, and engage in strategic planning to improve outcomes for all learners. Each quarterly session focuses on continuous improvement through collaborative problem-solving, evidence-based practices, and action planning. Teams will deepen their implementation of the Nebraska MTSS Framework by strengthening leadership structures, enhancing Tier 1 instruction and layered supports, improving data-based decision-making, and aligning resources to meet the needs of every student. Participants will leave each workshop with practical tools, dedicated planning time, and actionable next steps to advance their district's MTSS implementation and build sustainable systems that support long-term success.
